

Please Support the SBBA PAC

SBBA members share a common goal of making South Burlington a thriving and welcoming community for residents, businesses and visitors. The SBBA PAC is how we advocate for these ideals. South Burlington can not address our workforce, climate, public safety, education and affordability challenges if we don't expand our tax base, foster economic opportunities and increase the supply of housing in our city.

In order to build a diverse business community in South Burlington, the SBBA is backing an initiative to enhance community engagement in local and state issues. The SBBA PAC, a political action committee, has been established to elevate this important discussion.

*This effort is not supported by SBBA membership dues but through voluntary donations.
If you support SBBA's advocacy work, please support our PAC.*
